

PARENT WORKSHOP SERIES

SUMMER 2009

Thursday, July 2

10:30 a.m. - 12:00 p.m.

Behind the Scenes at The Highlands School

Presented by Beth Maahs-Hoagberg

Join us for an explanation of the Orton-Gillingham method of teaching reading and learn more about our tried and true techniques. A portion of the presentation will be set aside so we can answer any questions you might have about homework or anything else your child is learning during the summer program.

Wednesday, July 8

10:30 a.m. - 12:00 p.m.

How to Improve Comprehension

Presented by Beth Maahs-Hoagberg

Children who struggle with comprehension need to develop visual imagery for words they hear or words they read. Join us for a live demonstration with one of our students to see how visual imagery improves comprehension and higher-order thinking skills.

Wednesday, July 15

10:30 a.m. - 12:00 p.m.

The Math Program at The Highlands School

Presented by Vicki Whitaker

Join us to learn more about the "Math U See" program used at The Highlands School and how our multi-sensory, hands-on approach helps students master even the most abstract math concepts.

Wednesday, July 22

10:30 a.m. - 12:00 p.m.

Executive Functioning, Study and Organization Skills

Presented by Paula Carmody and Paula Moraine

Children who struggle with Executive Functioning often experience difficulties with time management, project planning, study and organizational skills at home and at school. Learn more about Executive Functioning, its impacts, and the strategies your child can use to improve his or her time management, study and organizational skills.
